SOFTWARE ENGINEER

Experienced Software Engineer with 1+ Years of Expertise in Web Development, Focused on Delivering High-Quality Web-App Solutions. Crafting Innovative Solutions with Code.

TECHNICAL SKILLS

Languages:	JavaScript, Python, HTML, CSS, JQuery	**Frameworks:**	React.js, Node.js, MVC, REST APIS
Databases:	PostgreSQL, MongoDB	**Dev Tools:**	Visual Studio Code, Git, Gitlab

EXPERIENCE

Software Engineer   Feb 2023 – Present

HR Engine Development (Backend Developer):

- Played a pivotal role in the development of the HR Engine, a critical API station utilized organization-wide within the Benerite product.
- Developed multiple backend APIs that seamlessly integrated with the Benerite frontend, ensuring efficient data communication and processing.
- Collaborated closely with the frontend development team to ensure a cohesive and responsive user experience.

Activity Tracking System Implementation:

- Designed and implemented an Activity Tracking System, enabling real-time monitoring and recording of user activities within the Benerite dashboard.
- Played a key role in improving user experience by providing valuable insights through activity tracking data.

Database Development and Optimization:

- Made significant contributions to the database design process, applying normalization techniques to ensure data integrity, efficiency, and scalability.
- Played a critical role in optimizing database performance, resulting in faster query execution and improved system responsiveness.

Software Engineer Trainee   Aug 2022 – Jan 2023

- Collaborated closely with cross-functional teams to identify, diagnose, and successfully resolve more than 50 intricate technical issues within the **Symfony** applications.
- Successfully integrated secure API connections with third party APIs(QuickBooks and Gusto Online platforms), applying robust authentication and authorization mechanisms including **OAuth** and **JWT**
- Played a key role in developing a JavaScript library with essential methods for widespread use across the organization, promoting standardized practices and improving project consistency.

EDUCATION

Chitkara University   Rajpura, Punjab
Bachelor of Technology in Computer Science   *Jul 2019 – Jun 2023*

PROJECTS

☐ My Personal Website   Source Code

- Created and maintain a personal website that serves as a dynamic portfolio and hub for professional information.
- Designed and developed the website, incorporating various links and an "About Me" section to provide visitors with a comprehensive view of my skills, background, and interests.
- Actively use the website to showcase a diverse range of personal projects, allowing for easy access to project details, code repositories, and project outcomes.
- Utilize the website as a platform to demonstrate proficiency in web development, design, and content creation.
